📍 Shin-Kamagawa, Chiba 262-0023, Japan

🚶 Shin-Kamagawa Station

🎂 Jan 11, 2001

PROFESSIONAL SUMMARY

Software engineer from China, currently based in Japan. Japanese proficiency equivalent to JLPT N2; comfortable with business-level English communication. Graduated from Qingdao University (Mathematics & Applied Mathematics) in 2022.

Solution Engineer with hands-on experience in web application development, application design, unit/integration testing, data migration, and environment setup across finance, manufacturing, healthcare, and gaming projects. Strong self-learner — independently completed e-commerce projects (Android & PC) using Vue during university.

WORK EXPERIENCE

ST.WIN TECHNOLOGY — Software Engineer

Oct 2025 – Present

Team: 19 | Role: SE

- Develop and maintain a gaming platform website
- Implement new features, fix bugs, and perform testing
